AN EXPLANATION!

An explanation regarding what used to be called the Centemeri Kid Glove seems necessary For about 14 years the

MAGGIONI FRANGESGO

meri & Co as the Centemeri Glove It is very well known has stood the test of years, and is considered standard in the American markets The contract between P Centemeri & Co. and Maggioni Francesco having expired, P Centemeri & Co will no longer have any connection with the sale of this glove whatever, and all gloves henceforth will have the name MAGGIONI FRANCESCO branded in full in the left hand glove, and none genuine without it Recently, the manufacturer, Maggioni Francesco of Milan, Italy, decided to open an agency in New York, and establish sub agency through the United States for the sale of his glove under his own brand. The new arrangement has proved a great success, and the demand for the Maggioni Francesco glove is steadily increasing from day to day throughout the United States

We have secured the sole agency for this glove for Lima, and respectfully solicit your patronage A new in voice of these gloves have just come to hand
